SET-UP GUIDE

CardinalCommerce...moving transactions from any place
to the right place...THE RIGHT WAY.

www.cardinalcommerce.com | 877.352.8444

- 1 Log in to your Centinel Production profile: <https://paypal.cardinalcommerce.com>

****If you have NOT previously logged in to your account, please complete the License Agreement****

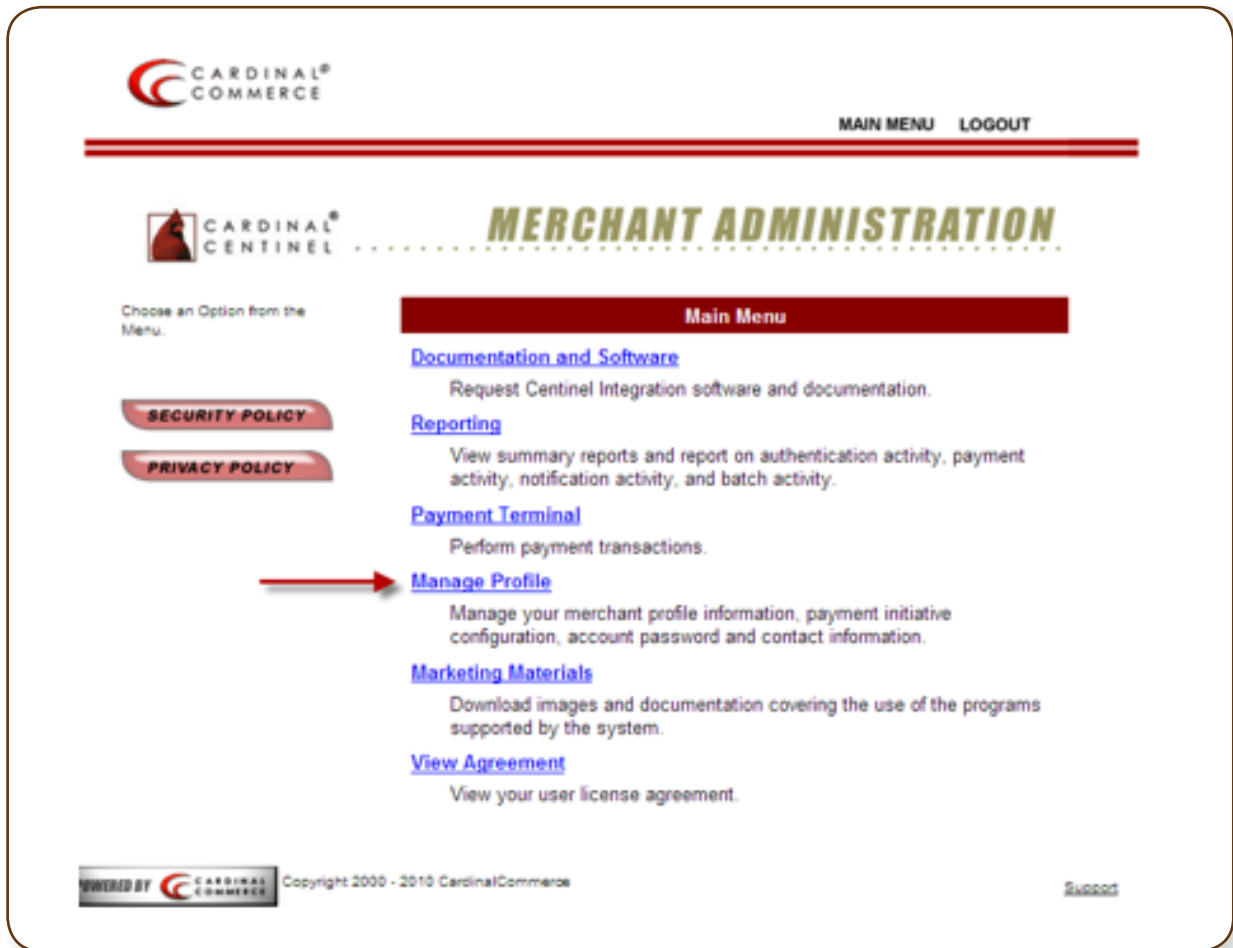

****Username and Password can be found in Section IV. of the Centinel Welcome Package email****

The screenshot shows the 'ACCOUNT LOGIN' section of the Cardinal Commerce website. At the top left is the Cardinal Commerce logo. Below it is a red horizontal line. The login form is titled 'ACCOUNT LOGIN' and 'Please Enter Your User Information'. It contains two input fields: 'Username :' and 'Password :', both with red arrows pointing to them. To the right of the fields is a red 'SUBMIT' button. Below the login form is a large box containing various payment logos, including Verified by VISA, MasterCard SecureCode, JCB J/Secure, amazon payments, ClickandBuy, BillMe Later, EBATES, eBillme, eLayaway, Google Checkout, mazooma, Secure Vault Payments, green dot, moneta, my2check, PayPal, revolutioncard, and U kash. At the bottom left is a 'POWERED BY CARDINAL COMMERCE' logo. At the bottom center is the copyright notice 'Copyright 2000 - 2010 CardinalCommerce'. At the bottom right are links for 'Cardinal Home', 'Security Policy', 'Privacy Policy', 'Terms of Use', and 'Support'.

2 Select Manage Profile from Main Menu

3 Select Manage Profile Information

 MAIN MENU LOGOUT

 **MERCHANT ADMINISTRATION**

Manage all aspects of your Merchant Profile Information using the links provided.

- 6 Log into your Magento Admin
- 7 Select "System" then Select "Configuration" from the drop-down
- 8 Select "PayPal" on the left side
- 9 Enable "Websites Payments Pro"

The screenshot shows the PayPal configuration page in the Magento Admin. At the top left is the PayPal logo, and at the top right is a "Save Config" button. Below the header is a "Merchant Account" section with two fields: "Merchant Country" (set to "United States" with a dropdown arrow and a note "If not specified, Default Country from General Config will be used") and "Email Associated with PayPal Merchant Account" (with a text input field and a note "Start receiving payments via PayPal"). Below this is a "Select a PayPal Solution" section with a "Help" link. It contains five radio button options: "Express Checkout", "Website Payments: Standard", "Website Payments: Pro" (which is selected and highlighted in yellow), "Website Payments: Pro Payflow Edition", and "Payflow Pro Gateway". Each option has a brief description and a "View Demo | Learn More" link. At the bottom, there is an unchecked "Express Checkout" option with a note about automatic installation.

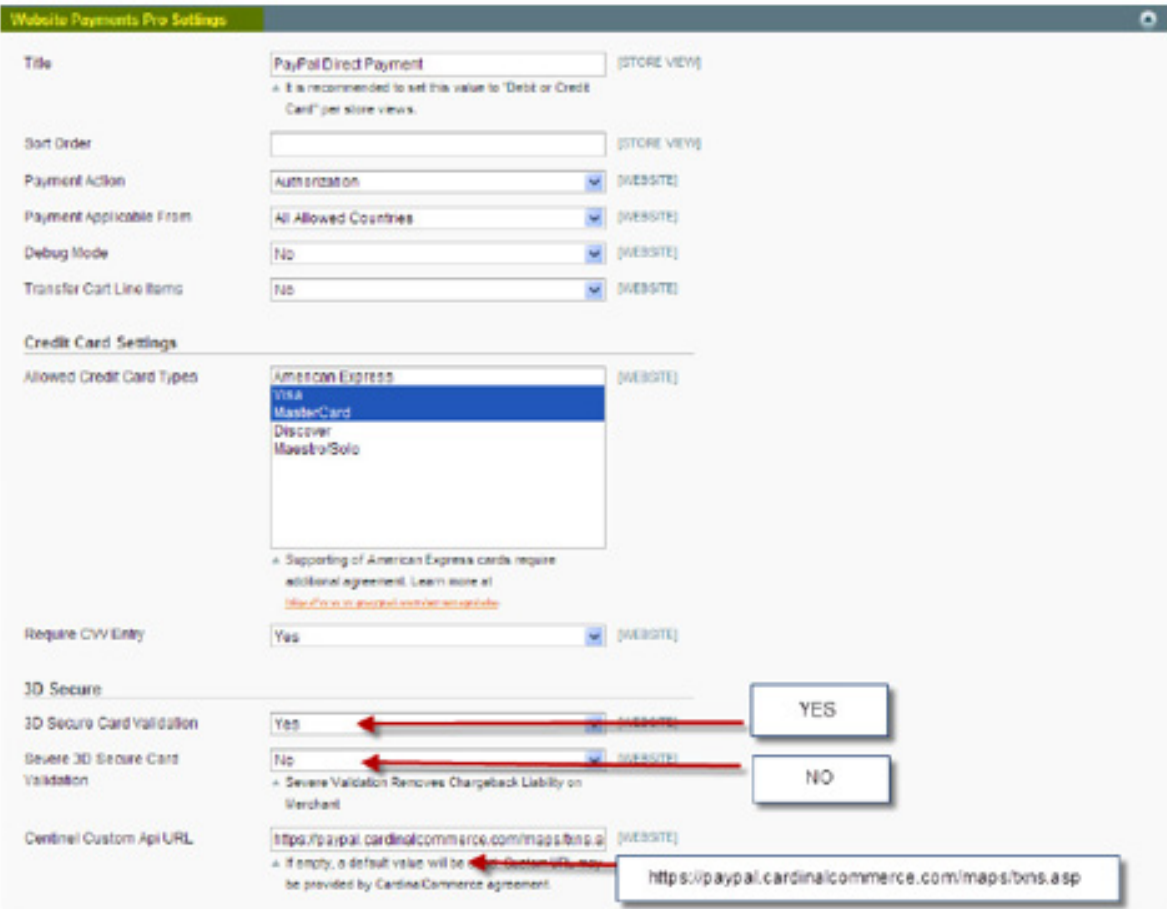

10 Enable the following settings:

3D Secure Validation: YES

Severe 3D Secure Validation: NO

Centinel Custom API Url: <https://paypal.cardinalcommerce.com/maps/txns.asp>

The screenshot shows the 'Website Payments Pro Settings' page in Magento. The 'Title' is set to 'PayPal Direct Payment'. The 'Payment Action' is set to 'Authorization'. The 'Payment Applicable From' is set to 'All Allowed Countries'. The 'Debug Mode' is set to 'No'. The 'Transfer Cart Line Items' is set to 'No'. The 'Credit Card Settings' section shows 'Allowed Credit Card Types' with a list including 'Amazon Express', 'Visa', 'MasterCard', 'Discover', and 'Maestro/Solo'. The 'Require CVV Entry' is set to 'Yes'. The '3D Secure' section has '3D Secure Card Validation' set to 'Yes' and 'Severe 3D Secure Card Validation' set to 'No'. The 'Centinel Custom Api URL' is set to 'https://paypal.cardinalcommerce.com/maps/txns.asp'. Red arrows point from the 'YES' and 'NO' buttons to the respective dropdowns, and a red arrow points from the 'Centinel Custom Api URL' field to the URL text box.
