

CREATE AND SEND PROFESSIONAL INVOICES

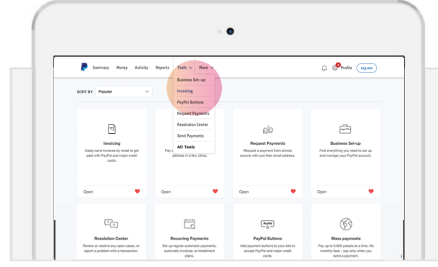

Send an invoice in seconds

If you need to send an invoice to your customers, you can create, email the invoice or share the invoice link directly from your PayPal account. Your customers can click and pay you straight from the invoice, or pay with a credit or debit card linked to their PayPal account.

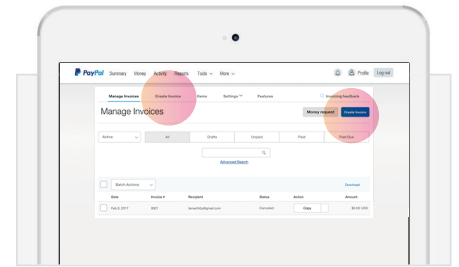

Step 1

Log in to your PayPal account at www.paypal.com/cn.

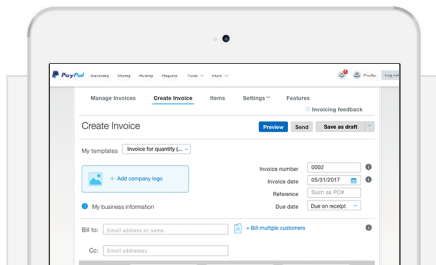

Step 2

Click on **Tools** and look for **Invoicing**.

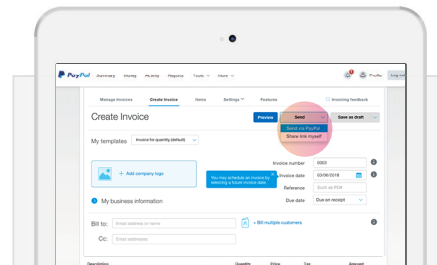

Step 3

Click on **Create new Invoice** (blue button).

Step 4

Enter your customer's email address, payment amount, description and any other information needed.

Step 5

Click to expand the **Send** dropdown to either **Share Link Myself*** or **Send** the invoice directly.

*Because invoices contain your customers' personal information, never share the invoice link in a public forum.
